The High Ropes Course at Luther Park Bible Camp has 7 elements at 25 feet high which are secured to trees. Each element has a cable where participants are attached with a belay system. Each participant is given a waist harness, helmet, safety rope, and steel locking carabiners for static belay that is all checked before each climb. Ground instruction is always given prior to participation. Trained instructors or facilitators are present at all times to monitor, support, and facilitate a positive experience. Our philosophy is "challenge by choice"- all participants choose what they feel is challenging but not too frightening. Facilitators also schedule time to debrief with each group to allow this experience to be processed.
