

Health Guidelines

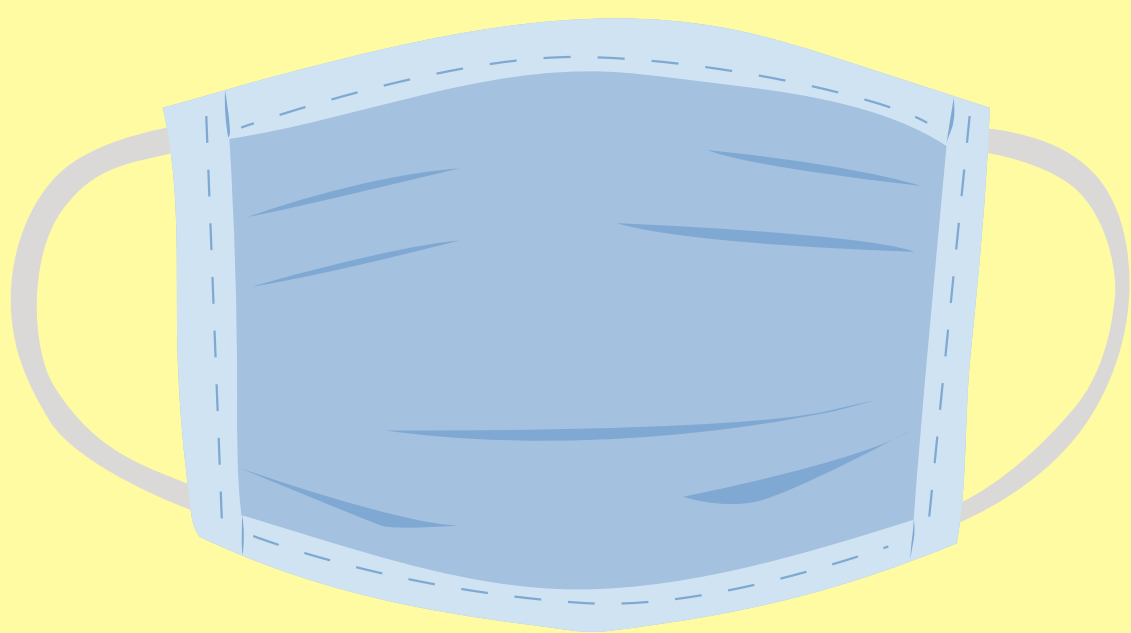

Temperature checks will be taken upon arrival.

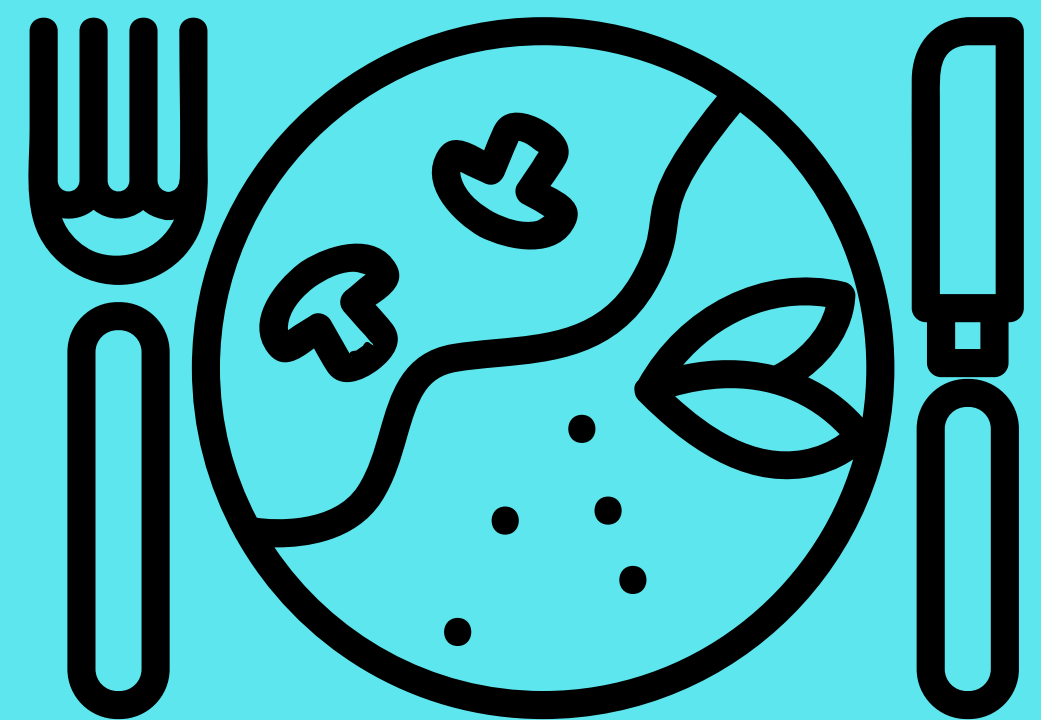

An individual or group with a fever of 100.4 degrees F or higher will not be able to attend the Recharge.

Registration and Payments are suggested to be completed before arrival so check-in only involves health screening.

Staff will be wearing masks inside. We ask participants arrive with masks on for check in and wear them for all indoor activities.

Meals will be served in the dining hall, with the option for participants to eat inside or outside. Tables will be spaced accordingly.
